

2015

ANNUAL REPORT

SAN BERNARDINO COUNTY SHERIFF'S DEPARTMENT

Mission

*P*rovide collaborative law enforcement solutions that meet the needs of our communities and partners by delivering high quality professional services to America's largest county.

Values

*I*ntegrity

Honest and ethical behavior while giving due respect to each individual inside and outside our department.

*L*eadership

Shape the future with courage, creativity, diversity, mentoring and accountability.

*P*artnership

Collaboration with internal and external partners to become more effective in providing a better quality of life for all those we serve.

*S*ervice

Provide quality service to the people who live, work and play in each of our communities.

*R*esponsibility

Accountability to deliver services through department members within budget, while encouraging law enforcement innovation.

John McMahon, Sheriff-Coroner

Word from the Sheriff

As I enter my 31st year of law enforcement and fourth year as Sheriff, I am honored to work with the dedicated men and women of this department. As I reflect on this past year, it is one that had many remarkable achievements, difficult decisions, and tremendous losses.

I have worked closely with our elected officials and the County Board of Supervisors to acquire the department's annual operating budget for the fiscal year; it is just over \$550 million dollars, which makes it the county's largest segment of the budget. It has allowed the organization to expand and make renovations at facilities we have outgrown. On October 22, 2015, we re-opened the Training Center, and in the beginning of 2016 we will open the brand new Crime Lab, as well as the Aviation Hangar at the San Bernardino International Airport. These improvements to our facilities provide our staff with the latest technology and equipment necessary to continue to fight crime in the 21st century.

As you are aware, law enforcement is a rapid evolving profession, requiring the department to adapt and make necessary changes in the way we police our communities. We have all felt the impact these changes have had on our department. Recent legislation, such as AB 109, Prison Realignment and Prop 47, the Safe Neighborhoods and Schools Act, has significantly impacted public safety and crime rates throughout the state and our region. In essence, these laws have changed California's long standing tough-on-crime approach and shifted the focus toward rehabilitation, mental health, and drug treatment.

Though these laws represent an alternative approach to incarceration, I believe some unintended consequences will pose long-term difficulties for the criminal justice system. The state has effectively decriminalized a variety of offenses, which has allowed more criminals on the streets. Many law enforcement leaders believe this will lead to a significant increase in the county's crime rates in the years ahead.

In anticipation of these changes, I shifted resources from low-level street drug enforcement teams to gang suppression

teams across the county. We have supplemented patrol by adding new deputy positions and have focused our efforts on hiring more deputies to staff the expansion of the High Desert Detention Center. This will give us the ability to house an additional 1,049 inmates.

Over the past few years, the law enforcement profession has taken a hit in the media by making it seem we were out of touch with our communities. I can tell you that isn't true in San Bernardino County. I am proud of the long-standing relationships our department has built within our communities. With our presence on social media, we have been able to showcase the great work our deputies do on a daily basis. This has made a positive impact on our relationships and we will continue to share these positive stories. Last year we also created a recruitment team to continuously seek and hire the next generation of diverse employees who will continue our department's great legacy.

Our county experienced tremendous loss last year, and we will never forget December 2, 2015, when 14 innocent lives were taken, and 22 people were wounded in the largest terrorist attack on U.S. soil since September 11, 2001. Most of the victims were San Bernardino County employees. The survivors along with countless others were impacted by this event and will live with emotional scars following this attack for the rest of their lives. When I reflect on the magnitude of this tragic event, I am extremely proud of the men and women from this department who responded during this time of chaos. The sheer competence of the first responders and their incredible bravery served as an example to the world.

With everything I have witnessed over the years, I continue to believe the San Bernardino Sheriff's Department is one of the premier law enforcement agencies in this country. We have worked hard to earn that reputation and we will remain committed to continued improvements in our service.

I am honored to be the leader of this organization and I want to thank the citizens of this county for placing their trust in me. It is a privilege to serve as your Sheriff.

Our Commitment

*"We are committed to providing collaborative law enforcement solutions that meet the needs of our communities and partners by delivering high quality professional services to
America's largest county."*

Sheriff John McMahon and a victim's family view the San Bernardino International Airport from the reception terminal.

IRC Victims' Families, Survivors and First Responders Reception

On Wednesday, January 27, 2016, the Sheriff's Public Affairs Division planned a reception for the family members of the victims, the survivors, and first responders of the December 2nd terrorist attack. The reception stemmed from requests Sheriff McMahon received from the victims' families and survivors to meet with their heroes. "Many of the survivors and families expressed a desire to personally meet with and thank some of the first responders of that tragic day," said Sheriff McMahon.

The evening's reception took place inside the main terminal at the San Bernardino International Airport. Approximately 100 family members and survivors attended. Sheriff John McMahon and Police Chief Jarrod Burguan opened the reception and invited attendees to speak freely with first responders in a relaxed and open environment. For two hours people exchanged stories and heart-felt words with the first responders who had helped them or their loved ones.

(continued on page 8)

(IRC Victims ...continued from page 7)

At the close of the reception it was apparent that the families, survivors, and first responders were all very pleased with the opportunity to meet each other. “We know our condolences cannot take away any of the pain from this heinous attack, but it is our hope that bringing everyone together will help each of them in their healing process,” said McMahon.

Prior to the reception, Sheriff’s Public Affairs organized a multi-agency group photograph with around 200 first responders, as well as emergency and tactical equipment utilized during the multi-agency response on December 2nd. ■

Agencies included in the IRC First Responders photo were: San Bernardino County Sheriff’s Department, San Bernardino Police Department, San Bernardino County Fire, Colton Police Department, Redlands Police Department, San Bernardino County Probation Department, Rialto Police Department, Fontana Police Department, San Bernardino City Unified School District Police Department, California Highway Patrol, and San Bernardino City Fire Department.

SAN BERNARDINO AND LOS ANGELES COUNTY SHERIFF'S DEPARTMENT

EXECUTIVE ROUND TABLE, WEST VALLEY DETENTION CENTER

JULY 6, 2015

Historic Executive Roundtable between SBCSD and LACSD Executive Staffs

The first goal under “Partners” in the Sheriff’s 4-Year Plan is to “Demand strong working relationships with our Federal, State and Local agency partners.” On March 16th, the entire San Bernardino County Sheriff’s Department Executive Staff met with the Riverside Sheriff’s Executive Staff for a luncheon at

the Highland Station. On July 10th, another milestone was achieved when the Los Angeles County Sheriff’s Department Executive Staff met our Executive Staff at the West Valley Detention Center.

No one can remember a time when the spirit of local partnerships was as meaningful and

(continued on page 10)

(Historic Executive Roundtable...continued from page 9)

productive in law enforcement as it is today. Building, maintaining and expanding professional relationships has always been one of the cornerstones of Sheriff John McMahon's vision.

During the meeting, Sheriff McMahon addressed the group and spoke on a wide variety of topics. He shared some of the challenges facing all law enforcement agencies today and offered some

innovative solutions. Los Angeles County Sheriff Jim McDonnell acknowledged Sheriff McMahon's leadership skills in taking the initiative to set up this historic meeting, and thanked him. Both Sheriffs agreed that in addition to LASD and SBSD, a future luncheon could include Riverside, Orange, Ventura, Kern and Inyo Sheriff's Departments. ■

Carolyn Bondoc Receives Financial Manager of the Year Award

Carolyn Bondoc has been the San Bernardino County Sheriff's Department's Financial Manager for almost 25 years. Carolyn is assigned

to the department's Bureau of Administration and currently has direct responsibility for the department's \$551 million dollar budget. Carolyn makes critical financial decisions affecting the service provided by the department's 3,600 employees.

In her capacity as Financial Manager, Carolyn has direct supervisory responsibility for sixteen accounting personnel and oversees the work groups associated with Grants, Finance, Cal Card, Cost Accounting, Special Revenue Funds, Fixed Assets, Inventory Management, Financial Reporting, and Internal Auditing.

During the recent economic downturn, Carolyn was instrumental in working closely with the Office of the Sheriff to mitigate the negative operational impact of a nearly 20 million dollar reduction to the department's base budget over several years. As a result of her diligence, problem-solving skills and comprehensive knowledge of the budget, the Sheriff's Department did not have to lay off a single employee. Carolyn worked closely with the County Administrative Office in identifying alternative

solutions that did not compromise the department's ability to continue providing high quality law enforcement services. Throughout this process, Carolyn utilized her unique ability to balance the need to protect the department, while at the same time working in partnership with the CAO to solve real financial issues related to increased costs and diminishing revenues.

As the economic downturn slowly began to recover, Carolyn developed a comprehensive plan to increase the amount of staff assigned to the Bureau of Administration. She recognized the significant need to improve operational effectiveness and implement strong internal processes to ensure proper cost recovery, cost accounting, and reconciliation occurred. Closing some of these structural, internal control deficits required identifying alternative funding sources to ensure on-going funding for new positions in order to handle the increased workload.

As a result of Carolyn's professionalism, dedication and expert knowledge of the budget, the department has been successful in mitigating millions of dollars in revenue shortfalls and consistently comes in under budget.

Her tremendous historical knowledge has been essential to solve problems, both small and large, ensuring proper funding for all of the various programs, operations and equipment needs of a Sheriff's Department. ■

A Fifth Homicide Team Added To The Homicide Detail

The Specialized Investigations Division is comprised of the Homicide Detail, Crimes Against Children Detail and Polygraph Detail under the command of Captain Leland Boldt and Lieutenant Don Lupear. The Specialized Investigations Division is responsible for investigating homicides, suspicious deaths, in-custody deaths, officer-involved shooting incidents and crimes against children. Similar investigations are done in those contract cities served by the department, as well as other police agencies within the county, when approved by the Office of the Sheriff.

In addition to the more conventional investigations, and as a result of the specialized training and experience acquired by investigators assigned to the division, sensitive specialized investigations for other law enforcement agencies and/or County departments are also conducted. Essentially, the services of the division are available to any law enforcement agency in the County with the approval of the Office of the Sheriff.

As of August 7, 2015, the Homicide Detail consisted of four call out teams and one cold case team. Each call out team is comprised of one sergeant and four detectives. At all times, two call out teams are on call for two consecutive weeks and two are off call for two consecutive weeks. When not responding to calls, teams remain busy conducting follow-ups regarding crimes that occurred recently or many years ago.

The difficulties in investigating homicide cases that have few leads, if any leads, and that may not have been worked for a long period of time, are challenging and quite complex, especially if there is a lack of resources and time. Homicide investigations, clearance rates and productive communication with the public are all critical concerns for the San

Team Five from left to right: Detective Joseph Steers, Detective Michael Warrick, Sergeant Greg Myler, Detective Brendan Motley and Detective Tina Kirby

Bernardino County Sheriff's Department and the communities it serves. Despite recent improvements in training and clearance rates, we know we can do better.

On August 8, 2015, Sheriff McMahon and the Executive Staff added a fifth homicide team to the Homicide Detail. The Homicide Detail has operated with four call out teams since 1993. On average, there are 120 homicide call outs per year. With the addition of the fifth team, there will be additional staff to conduct investigations and an additional week off call to follow-up leads.

The San Bernardino County Sheriff's Department is dedicated to pursuing the criminal element in each and every homicide case with the primary goal of giving answers and closure to the families of murder victims, along with protecting the citizens of San Bernardino County. ■

Frank Bland Regional Training Center Grand Re-Opening Ceremony

On Thursday, October 22, 2015, Sheriff John McMahon, along with numerous department employees, was joined by officials from throughout the county to celebrate the Grand Re-Opening Ribbon Cutting Ceremony of the Frank Bland Regional Training Center. Demolition of the original buildings began in August of 2014. The administrative building, to include training classrooms, increased in size by approximately 4,000 square feet. An additional classroom was added to bring the total number to

three. Training Staff now has office space necessary to conduct their daily administrative tasks in close proximity to the classrooms, and has a view of the PT (physical training) field. Classrooms were increased to provide additional space for larger academy classes with state of the art digital technology to deliver one of the state's top training academies.

The Frank Bland Regional Training Center has provided essential law enforcement training to Sheriff's deputies and officers throughout the state

(continued on page 20)

Sheriff John McMahon cuts the ribbon to celebrate the grand re-opening of the Frank Bland Regional Training Center.

(Frank Bland...continued from page 19)

since 1973. Recognized by Peace Officer Standards and Training, or POST, by leaders in progressive law enforcement training, the training center staff trains thousands of law enforcement officers each year from various agencies. The Training Center utilizes many experts and experienced professionals in their fields to present each component of training. Our high standards, professionalism, and commitment to excellence, contribute to the constant demand for training our facility receives from agencies throughout the county and state.

The Sheriff's Basic and Modular Academy programs are conducted at the Frank Bland Regional Training Center, graduating an average of 300 students each year between the programs. Certified by POST and accredited by San Bernardino Valley College, our academy programs exceed the standards required by the State of California. Our Basic Academy is one of the few "Intensive Delivery" programs still operating in the state. We believe the emphasis on discipline,

stress, and real world scenarios helps develop a more well-rounded officer, better prepared to handle the challenges of a law enforcement career.

The Training Center compound, which is nestled in the foothills of Devore, sprawls nearly 800 acres. Incorporated within the property is an eight mile Emergency Vehicle Operations Center, complete with a city grid, high speed maneuvers track, and a skid pan to simulate icy weather conditions. The Training Center also boasts one of the largest outdoor ranges in the region. Five 50 yard ranges, a Trap & Skeet range, and a 300 yard rifle range provide multiple firearms training options. There is also a Live Fire House for use by Special Weapons and Tactics teams or for advanced firearms training. This specially constructed building of reinforced steel and custom-crafted bullet trap material allows for realistic building entry and room clearing training. In addition to the administrative building and classroom upgrades, several improvements were made to the firearms range.

The Training Center is continuing to grow to enhance the delivery of training. From constantly seeking the most relevant and useful tactics, to the newest state of the art technology, the Training Center's mission will always be to prepare today's officers for tomorrow's challenges. On March 10, 2016, the 200th Academy graduated.

"The improvements symbolize many great things: the legacy of those whose vision we carried, tremendous support and collaboration between the CEO, County Board of Supervisors, and the Sheriff's Department; and our commitment to providing quality service to our communities by enhancing our capacity to deliver professional training," said Captain Darren Goodman. ■

H.O.P.E. Team Reaches Goal to End Veteran Homelessness

(Above left): The Orenda Foundation's open house. The Team posed with Kelly Maxwell (center in the black shirt) and two vets who were housed there through the H.O.P.E. Team's collaboration with Orenda. (Above right): Chester Kozak, US Navy Veteran. He is a Korean War Veteran who had been on the streets of Redlands for 20+ years. Chester was very reluctant to speak to us at first, but with persistence he finally opened up. He is now in the housing process. (Bottom right): Doug Brown, US Marine Veteran. Doug was on the streets of Victorville after losing his job because of medical problems. The Team connected him with Kelly Maxwell of the Orenda Foundation, that deals exclusively with homeless military veterans. Doug is now in his own home.

On July 21, 2015, the County of San Bernardino set a goal of ending veteran homelessness in our county. Working with the Veterans Administration (VA) and VA affiliates, the H.O.P.E. team helped to create a work group where veterans who were encountered were discussed and referred to the most

suitable service provider. Along with the H.O.P.E. Team's outreach efforts, over 500 veterans were connected with services and housed. As of December 31, 2015, the County of San Bernardino has virtually zero homeless veterans. ■
